Conditions of Contract

The consumer shall pay the minimum charge only when the amount resulting by applying the meter rates to the quantity of water consumed is less than the said minimum charge. Bills will be rendered either quarterly or monthly, at the option of the district for water consumed during the applicable period. For metered service, the Utility shall have the authority to prorate water bills to reflect the actual portion of the billing period in which the Customer had active service. All bills are due and payable upon presentation.
