

Bath Water District
Assistant Superintendent

The Bath Water District is accepting applications for the position of Assistant Superintendent.

Bath Water District is responsible for providing drinking water to approximately 3,500 customers in the City of Bath and four surrounding communities. The District maintains nearly 60 miles of distribution mains, 400 fire hydrants, and operates a 4 MGD surface water treatment plant, with a current staff of 11 employees.

The Assistant Superintendent will be responsible for supervising all District operations reporting directly to the Superintendent. Operational duties will include but not be limited to; overseeing the maintenance of the distribution mains, storage tanks, treatment plant, and other related facilities. Managing budgets, inventory, and safety programs, overseeing projects and coordinating with contractors, engineers, and regulators.

The desired candidate will possess a bachelor's degree from an accredited college in engineering, environmental science, or business management and have experience in the discipline. Experience with water or other utilities, engineering, project management, SCADA/computer programming/instrumentation, among other technical disciplines is also desired.

More information about the District is available at www.bathwd.org. Bath Water District offers an excellent benefits package including participation in the Maine State Retirement System. Salary will be commensurate with qualifications and experience.
